FREQUENTLY ASKED QUESTIONS- General (YLI)

Q: What are the semester requirements?
A: 1) Complete the YLI Orientation Canvas Modules Course for your licensure track
   2) Complete Attendance Log and upload to Taskstream at the end of the semester
   3) Complete the Field Experiences Checklist according to your course instructor's direction and upload to Taskstream at the end of the semester

Q: I am the teacher of record, do I still need to log attendance hours?
A: Yes, Resident/Lateral Entry teachers do need to complete the attendance log to document any hours required by their courses. The attendance log can be found on our website here.

Q: When do I submit my checklist and attendance log into Taskstream?
A: Your checklist and attendance log should be submitted to Taskstream at the end of the semester. Any questions about checklists and attendance logs should be directed to your course instructor(s) not the Office of School and Community Partnerships.

Q: Where can I find the clinical checklist?
A: All checklists can be found on our website here. Please consult your course instructor to insure you are utilizing the correct checklist for your course and semester.

Q: Is there anything else that I need to do/not do as a result of being a lead teacher during YLI?
A: This semester, you are required to complete the 1) YLI Orientation Canvas Modules Course 2) complete the attendance log, 3) complete the Field Experiences checklist according to your course instructor's direction.

Q: I am concerned about how certain requirements will work given the rocky situation that is hybrid learning.
A: All instructors are aware of the situation with hybrid or fully remote learning and are adjusting assignments accordingly. Please reach out to your course instructor if you are not sure how to adapt an assignment for remote or hybrid learning.

Q: When do we turn in our checklist? And do we have to complete everything on the checklist?
A: Checklists will be submitted to Taskstream at the end of the semester. You should talk to your course instructors for guidance on which items need to be completed.

Q: I am not sure where to find the clinical checklist, attendance log and field experience checklist online.
A: Click here for all checklists
   Click here for Attendance Log ("YLI Remote Teaching Log")
   Click here for self-enrollment YLI Orientation
FREQUENTLY ASKED QUESTIONS- CANVAS COURSE(YLI)

Q: Are you able to enroll for a Canvas course from your phone?
A: No. You must enroll from a computer using your NinerNet credentials.

Q: What do I do if I do not see the Canvas Course in my Canvas dashboard?
A: You must self-enroll in the course using the link provided to you by OSCP. You will not see the course until you self enroll from a computer.

Q: Is live session attendance required?
A: Attendance for all live sessions is expected. At each live session, you will complete a google form which will be used to track your participation. If you have a class during that time, you will be required to watch the recording (located in the respective live session module) and complete a quiz. Please review the calendar for live sessions so that you can plan ahead to make these sessions.

Q: Who do I reach out to for help during the YLI semester?
A: In the Canvas course, please review the “Asking for help during YLI” page in the introduction module. This page contains a chart with your assigned point of contact.

Q: What do I do if I am unable to access the links in the YLI Canvas course?
A: Make sure you are logged into Google with your UNCC account. Then click authorize.

Q: How do I know when live sessions are?
A: Visit the “Course Calender” in the YLI Canvas course

Q: How do I know when modules are due?
A: Visit the “Course Calender” in the YLI Canvas course

Q: Why does a module have a lock symbol next to it?
A: Modules are locked for two reasons:
   1. The module has not been released to you. Modules have set release dates to ensure you are pacing these topics throughout the semester.
   2. You have not fulfilled the requirements from the previous module.
